scotting its rear end on the ground	<input type="checkbox"/>	accidents at home	<input type="checkbox"/>

Has your dog been treated for any health problems?

Yes

If so please indicate:

What medications is your dog currently taking (please include heartworm, flea and tick products, prescription medications, over the counter medications, and supplements):

The Imperial Animal Hospital wants to make sure your pet is healthy now and in the future. Therefore, we are emphasizing preventative medicine by recommending twice yearly physicals on all animals. Animals over 7 years of age should also have yearly bloodwork, urinalysis, abdominal and chest x-rays.

Are you interested in hearing more about this from your veterinarian?

Yes
